Use this guide to choose the stay. Use Arbora as the calm base above the trees.

Built for phone reading

This version removes dense tables and turns the guide into short, tap-friendly cards.

Tap the green buttons. They open official resort, municipal, park or operator pages. Hours, prices, weather, ages and availability change by season, so always confirm before booking an activity.

- **Pick your vibe.** Ski week, summer lake trip, wellness reset, family weekend, foodie stay or event-driven visit.
- **Choose one anchor per day.** One big activity plus one easy evening usually feels better than over-scheduling.
- **Let Arbora do the recovery.** Mountain or lake outside, private spa and treetop calm back at the penthouse.
- **Plan village access realistically.** Arbora is in the Versant Soleil / Ostrya setting, close to the resort ecosystem, but daily village outings are usually planned by car, shuttle or seasonal connections rather than assuming everything is on foot.

Make Tremblant feel effortless

Choose Arbora when you want a premium group base: four bedrooms, heated parking, elevator access, treetop views and a private spa ritual after every outing.
